INTRODUCTION

ABOUT US_ A BIT OF HISTORY

The headquarter of Roma Imperiale srl, the young company which distributes the long known brand Nieri, is in Quarrata in the heart of Tuscany: a land of art and beauty.

Born from the passion and creativity of Alberto Nieri, the third generation after the founder Gino, the brand Nieri is now a reality of global significance for the number of exports and for the undisputed quality of its lounges. The company is currently managed by the fourth generation of the Nieri's family, being as a matter of fact a Family Business since 1929. Rarely indeed the story of a company, is identified so closely with the story of a family such as for Nieri.

With the work of generations Nieri's Family has built, from nothing, a production which today has an international feel.

The production units are concentrated where the technical, administrative and commercial control unit is located, that is, all in Tuscany. All materials such as leather, fabric, wood and rubber come from Tuscany or the north of Italy.

Historical facts:

1929 the grandfather Gino, a young carpenter who is distinguished by excellent technical skills and for his original creations, began creating wooden structures for upholstered furniture.

Learned the art of making chairs and sofas, Gino started designing and manufacturing the pieces of furniture entirely on his own and managed to create exclusive furniture as for originality, quality and style.

In the 50s, his son, Mauro Nieri contributed to the expansion of the company with new energy and fresh ideas on the Italian market. In this way the tradition passed into the hands of the second generation.

In the 70ies Mauro was joined, already at an early age, by his son Alberto, who also participates in the company's development also on the international scene by taking part in the most important trade fairs and exhibitions Worldwide, therefore increasing the company's export level.

In recent years Alberto received the help of his brother Maurizio, his daughter Jessica and his cousin Susanna whose managerial professionalism is expressed in remarkable successes in new markets and new channels, carefully chosen and managed.

Today at the fourth generation, the company is still carried out by the Nieri Family which with new globalized projects and opened towards a younger audience is increasingly entering large and diverse market segments.

The design Nieri is a process that involves love of form, comfort, quality. Each approved design is the result of careful studies and long analysis.

The production cycle begins with the cutting and the stitching of leather and fabrics, all swatches carefully and strictly selected.

Together with flair for style and details but also attention to the production, Nieri uses a total quality system according to international standards and it's certified by MUN as National Manufacturer, a certificate that guarantees that the origin of all products is 100% Made in Italy. The MUN Registration number for Nieri is ITCOT.MUN-A0000016

Nieri is nowadays exporting in over 62 countries in the world its high quality sofas and armchairs, all made with the best design and the best Italian style.

Once processed, the wooden frames are elegantly handled by master painters and collected in the various production centers for the assembly. Meanwhile, upholsterers create stuffing pillows and backrests with a technology and an attention that can only be appreciated by sitting on an exclusive sofa Nieri.

Industrial production is combined with the craft technique so that the product obtained is unique and comparable to a true work of art. Upholsterers and assemblers create one by one the pieces of furniture combining leather, fabrics and rubber, taking care centimeter by centimeter of every detail, giving shape, beauty and harmony to the composition.

The result: a "unique piece" designed and studied in detail.

Even the packaging, distinguishes the company from the "other" for attention, protection and safety: a Nieri Sofa deserves every care!

* Back seat cushions are included in the price and can be chosen in all coverings of our collection.

BACKREST CUSHIONS DIMENTIONS:

- For 3 seater + End. elem. 3s + chaise longue = 90x50 cm
- For Central, Jolly Element and Meridienne = 60x50 cm
- For End element 2 seater , central element, 2 seater = 70x50 cm
- Decor Cushions: Suitable for all elements = 40x40 cm

- * The upper seat cushions is removable and changeable but only as a unique piece with covering and foam.
- * The back part of the sets is open, and the back cushions are sustained by a padded structure and by metal bars. We recommend never to seat on the back frame.
- * All 2 and 3 seater elements can have a bed version. The bed version has a French bed mechanism with orthopedic mattress easy to pull out by removing the upper seat cushions.
- * The sound system works with MP3, Wave, iPods and Iphone 4 (for upper version you need an adaptor) and can be placed only in the Corner element and the Central Storage.
- * Different combination of coverings or different sizes are not previewed in our system. Special requests, if possible, will be considered a "not standard product" and a 10% surcharge will be applied.

MATISSE BED VERSION

- * Electrical recliner, additional battery and decor cushions are optional.
- * Manually adjustable headrests are a characteristic of each piece, with or without recliner. In order not to break the internal headrests mechanism we suggest to lift up the headrest adjust it in one of the 3 possible positions and to bring it back, push it forward till you feel the mechanism soften and bring it back in horizontal position.
- * When recliner mechanism is chosen for a central seat or for an internal element the touch up buttons are hidden between the seat cushions.
- * In case you order a fixed end element and a recliner or bed element to join with it is possible that the balance of the whole sofa is not stable due to the different weights of the elements.
- * In case of multiple recliners in a same composition plugs will be multiple. It is not possible to plug in all elements with the same plug.
- * Loose pillows are not included in the composition. In case you order a Corner Element please also choose the corresponding back seat loose pillows 50x50 cm.
- * All 2 and 3 seater elements can have a bed version. The bed version has a French bed mechanism with orthopedic mattress easy to pull out by removing the upper seat cushions.
- * The sound system works with MP3, Wave, IPods and Iphone 4 (for upper version you need an adaptor) and can be placed only in the Corner element and the Central Storage.
- * Different combination of coverings or different sizes are not previewed in our system. Special requests, if possible, will be considered a "not standard product" and a 10% surcharge will be applied.

GENERAL SALES CONDITIONS AND TECHNICAL SPECIFICATIONS

The pictograms, weights, volumes and dimensions of the products indicated in the catalogue are purely indicative. The colours and sizes listed may not faithfully reproduce the real ones and cannot be the subject of any complaint.

An extra charge of 10% may be applied for not standard production.

Excluding exceptionally busy periods or holidays breaks the average delivery term for our STANDARD products varies from eight to ten weeks. For NON STANDARD products or special production the delivery time may be increased of 2-4 weeks. The exact time will be stated in our written confirmation. Please always carefully check it and timely report unclear issues.

Roma Imperiale has the right to make changes without notice. The information contained in this publication are not binding. Some product might go out of production from one publication to the other so please always ask for products' availability.

PRODUCT INFORMATION

- The structure is made of solid poplar or beech wood.
- The product is assembled using glue and interlocking joints.
- All our materials comply with European standards.
- The seat support is sustained by elastic belts.
- The filling and Dacron are CFC-free.
- The leather upholstery is PCP-free.
- The packaging is recyclable.
- The bed function changes the design of the sofa. Bed nets can be 2 folds or 3 folds according to the chosen model.
- The electrical recliners works with a 220 voltage. For lower voltages please ask for the special adaptor.
- Mechanical headrests can be put in any of its inclined position by gently lifting up the cushions with both hands, and can be closed back by pushing the mechanism till the end until it softens and then put it back in the original position.
- Do not move the sofa by pulling it or pushing it from the headrests or armrests with mechanism as they can be damaged.

LIGHT PADDING FURNITURE PRODUCTS

Upholstered furniture with international flair and style mainly has "light padding". It expresses casual elegance and comfortable, cosy seating. When new this upholstery appears relatively smooth, in use it becomes soft and snug and most enjoyable. Most of the Neri upholstered furniture are manufactured according to modern criteria with "light padding". If you have chosen cushions of a down feather-type or with a Dacron soft inlay we would like to remind you that the content of the cushions is distributed equally into individual chambers. The formation of waves and hollows in usage is not a sign of low quality but of its natural and genuine materials and expert crafting.

According to the intensity of use especially in the area of the "favourite seating place", regular shaking or plumping may be necessary. Claims for such a natural feature such as "light padding" will not be accepted.

WARNING! ACHTUNG! ATTENTION!

JOINTS FOR CORNER ELEMENT ARE INSIDE THE PACKAGING OR THE SOFA OR ARE ATTACHED TO THE SIDE. IN ORDER TO JOIN ELEMENTS JUST LIFT UP THE ELEMENT WITH THE MALE JOINTS AND INSERT THEM INTO THE FEMALE JOINTS.

MAINTANANCE INSTRUCTIONS FOR CLEANING AND CARE

Leather furniture might be compared with the car of your body. How you use and take care of your upholstered furniture is therefore essential for its appearance and life expectancy. Experience shows that the lighter and more natural the type of cover material the more sensitive it is to outer influences.

Please observe at all time the following care instructions:

- Never treat leather with solvents of any kind (e.g. turpentine, stain remover, cleaning paraffin, shoe polish, floor polish or any type of detergent). Please follow our recommended instructions as otherwise any claims under guarantee may become invalid.
- Any kind of stain must be removed immediately and in the proper way. Pay attention not to use in an improper way any cloths, detergents, chemical or mechanical products that could cause irreparable damages. It's important to distinguish the type of stain:
 - OILY stains (e.g. oil, chocolate, mayonnaise): use blotting-paper to absorb and remove the oil substance from the surface. Clean with a damp cloth, not abrasive, soaked in water and neutral soap and then dry gently with another clean cloth.
 - SOLUBLE stain (e.g. Coffee, tea, milk): use a clean cloth, not abrasive, soaked in water and neutral soap. Remove the soluble substance and dry with another clean cloth.
 - DRY stains: first of all don't rub the dirty part. Take a soft brush and brush very gently.

For any other specific questions in the field of leather cleaning and leather care please contact directly our partner:

NOVABUK FURNITURE AND FABRIC FURNITURE

Novabuk is a special new material made in part of leather and in part of microfiber, which gives it more resistance, is water and fire repellent and it's very easy to clean but it still keeps the soft touch of Nabuk.

Novabuk furniture can be cleaned with simple water by just rubbing the stained part gently with a smooth cloth, or by using special products suited for fabrics containing non aggressive agents.

Do not use alcohol or any other solvent for either Novabuk or other fabrics of our collection.

MUN CERTIFICATION OF 100% MADE IN ITALY _ NATIONAL MANUFACTURING

Our Company and brand Nieri exists in the Tuscan Territory, and more precisely in Quarrata since 1929.

We are proud to be one of the few Furniture companies to have our operating seat in the same Italian town when it all started, and to keep doing our job with the same values, the same craftsmanship, the same art and love of the same people who were here since the beginning.

This is a Family business, we believe in our country and in our territory, and we want to keep our quality, our standards and our products at a high level without having to displace our production or give up our traditions and quality standards.

That is why we decided to certificate our factory and brand with the MUN_Marchio Unico Nazionale, The National Manufacturing Certificate granted from Lloyd Register, an international Authority which, thanks to its procedures, can guarantee that all processes of our production, our materials, our manpower are actually 100% Made in Italy (actually Made in Tuscany in our case).

For more information please check the web site www.marchiouniconazionale.it

CERTIFICATE OF AUTHENTICITY

Roma Imperiale srl warrants that the products in this catalogues are authentic Nieri products. Nieri relies on first-rate, exclusive materials as well as on specialists' several years' expertise, so that the product can look like a one-of-a-kind object.

100% MADE IN ITALY

A unique blend of tradition and technology is what sets Nieri apart in terms of production. Nieri's products are craft-finished, while making the most of everything that is offered by industry, with a view to achieving the highest tailoring standard, strictly and genuinely Italian made. This is made possible by the company's long craft history, through highly professional dealers' proven skills and expertise as matched with the state-of-the-art working machines, which result in high-precision, mechanised cutting, whereas trained artisans are the name for remarkable sensitivity and unparalleled expertise in refining details, approaching sofas as finely tailored products. Expert hands producing quality, hands guided by passion and creativity, skilled, conscientious hands. Hands respectful of tradition and capable of controlling technology. Hands proud of developing ITALIAN MADE products.

TEXTILE AND LEATHER COLLECTION

The textile collection is one of Nieri's main pluses, much emphasis being placed on it and major resources being devoted to it. A new fabric and leather collection is developed every year, based on sophisticated textures and first-rate yarns, charming glossy/matt effects and structured wefts, specially designed by the company and exclusively manufactured for Nieri, to cater to the personal taste of anyone who is not fond of the idea of mass production. A unique collection which magnifies the high quality standard and creates a competitive edge for the seating systems. From cotton to velvet, from linen to chenille, from Nubuk to leather: Nieri's covers are the ultimate synthesis of comfort and versatility, lightness and durability, luxury and fashion. Many types of fabric capable of enhancing fine details and resulting in different characters and personalities for the products, according to one's own taste and lifestyle. Nieri's leather emphasizes the outstanding quality of both the products and the tailoring details, thus providing a unique plus. Leather means tradition, emotion and dexterity: investing in surveys and research has allowed Nieri to make customized colours, finishes and tanning available, with a view to developing products catering to the most sophisticated needs. The quality of Nieri's fabrics and leather is guaranteed by several strict, purpose-designed tests, in accordance with the most stringent European standards

CERTIFICATE OF WARRANTY

Regardless of, and in addition to, law provisions concerning product warranties, Roma Imperiale srl warrants the frames of its upholstered products (sofas, armchairs, chairs and sofas) for 10 years (from date of invoice). The leather and fabric covers, upholstery, mechanisms, accessories and component parts are covered by 24 months warranty. The warranty period for the occasional tables, is 2 years. The warranty covers original manufacturing defects of the product and includes free replacement or repair of such damaged or defective parts as acknowledged by Nieri or any representative designated by Nieri.

The warranty does not cover any damage caused by normal wear, mistreatment or misuse, accidental breakage or acts of God, nor does the warranty cover any defects other than those attributable to Roma Imperiale srl, including improper assembly or any assembly that does not comply with the mounting instructions. The warranty will not be applicable if the products are dismantled, modified or repaired by any third parties that are not authorized by Roma Imperiale srl. The warranty does not include fabrics and leather supplied by the Customer.

Leather is a natural product which keeps a few properties – even when worked – which define its origin, without affecting durability and quality: insect bites, small healed wounds, marks, wrinkles, differences in “grain” should be considered to be characteristics, and not defects. The natural adjustment of the upholstery is not a defect either. Wood is a “live” material: any small movements as temperature and humidity change are absolutely natural, and should be considered to be typical of furniture. Any warranty jobs will not cause the warranty to cease to be applicable. The warranty will cease to be valid after 10 years of the date of invoice. To exercise the rights arising from the warranty, this “Certificate of Warranty” and the purchase invoice shall be shown to Roma Imperiale srl and be kept throughout the period of validity of the warranty.

PACKAGING

Our packaging is designed to face each and every kind of shipping, weather conditions and kind of transport. As we do know that our products are delicate and valuable, that leather and wood are sensible to changes of temperature and to continuous pulling forces we provide a multilevel packaging.

1. The first layer is either cardboard or foam for the most sensitive part of the sofa and according to the model.
2. Secondly the whole sofa or piece of sofa is enveloped in a layer of nylon as to protect it from dust.
3. The third layer is a special plastic material called FOAMM which is flexible but more resistant than simple plastic layers, which is to protect the sofas from scratches or internal damages if the sofa is shacked or pulled along a wall.
4. Finally an airball envelop with our logos and our labels is wrapped around the whole pack and tied with strings and adhesive tape.

In this way we ship all over the world by ship, airplane, trucks and all our products come undamaged to their final destination for happy customers.

You can see a part of the production system and packaging at: <http://www.romaimperiale.net/made-in-Italy>
